

EMDR Therapy Refresher

CARE CORNER
TRAINING ASSOCIATION

Are you finding it hard to implement your EMDR training with your clients?
Reinforce your skills to apply EMDR with hands-on practice ...

COURSE OBJECTIVE

Many clinicians have been trained in EMDR Therapy because it is an effective evidence-based treatment for PTSD and other emotional problems linked to trauma exposure. Are you finding it hard to implement your EMDR training with your clients? This EMDRIA-approved training will reinforce your skills, give you hands-on practice and reinforce your ability to apply what you have already learned in your basic EMDR training to actually reprocessing your clients' traumatic memories and helping them to heal. (Must have attended the Fairy Tale Model workshop)

COURSE OUTLINE

- Learn additional methods of resource installation and enhancing safety, including grounding strategies
- Utilize cognitive interweaves to deal with blocking and looping more effectively.
- Utilize the future template protocol to ensure continued client success.
- Learn ways to effectively close down and contain a session and where to start at the next session.
- Learn updated research on EMDR and where EMDR stands in the trauma field.
- Understand the importance of target memory selection, cognitive interweaves
- Hands on review and practice of the 8-phase standard EMDR protocol, including take-away scripts to increase your confidence with your clients

Venue : To be confirmed
Course Fee : \$400
Closing date: April 20, 2015
(Day 1 is a prerequisite to attending Day 2)

TRAINER

Annie Monaco is a Licensed Clinical Social Worker and a faculty member of the Child Trauma Institute and The Trauma Institute. She has been serving children and families in Western New York since 1992. She has a private practice assisting children and teens with a multitude of behaviours and issues. Her specialties include foster care children, juvenile offenders, family therapy, and complex trauma. She provides trauma-informed trainings and consultations of EMDR and Progressive Counting to therapists in Singapore, Israel and throughout the United States.

Ann Beckley-Forest is a Licensed Clinical Social Worker in private practice. She has worked with children and families since 1996. She is a registered play therapist and play therapy supervisor, and her specialties include intervention with young children and problems of attachment and child and adolescent trauma, although she also works with families and adults. She is certified in EMDR with a special focus on EMDR with children. She has offered play therapy trainings in the US, China and Singapore, and has trained in Western New York, Washington, DC and in Singapore for the Child Trauma Institute.
