

Is Love Just a Myth?

Peer Learning Session & Buffet Dinner

As we approach the end of 2017, EMDR Singapore is gathering EMDR practitioners in Singapore for a cosy get-together. Over dinner, we will have time to relax, get to know each other and have a bit of fun, as we listen to a case presentation on Erotomania.

Can a lady in her 60s find true love with a married man in his 30s? Will her husband be the greater man and allow this May-December romance to flourish? Is it possible for cross generation romance to take place in the 21st Century? Erotomania, also known as the delusion of love, is commonly seen in the middle-aged group. They can cause significant disturbances to a person's life, and timely diagnosis and management is important. This talk focuses on the management of Erotomania with the combination of both EMDR and pharmacotherapy. *Participants must adhere strictly to confidentiality.*

About the Presenter: LTC (DR) Robin Goh

LTC (DR) Robin Goh, is a Military Psychiatrist in the Singapore Armed Forces. He also worked as Visiting Consultant to the Department of Child and Adolescent Psychiatry at the Institute of Mental Health. He is an active member of the Psychiatry Community and is the Honorary Secretary of the College of Psychiatrists and Singapore Psychiatry Association. He also volunteers at Lejia, a Voluntary Welfare Organisation, and actively conducts psychiatric talks to the public. He is a board member in the Residential Care Regulatory Branch under Ministry of Social and Family Development. He has published journals both locally and internationally and is a published author of three psychiatry textbooks and a chapter author in the NUH Medical Student Psychiatry Manual. He is the Programme Director of Psychiatry Residency Programme in SAF and is also a Clinician Educator in both Yong Loo Lin and Lee Kong Chian School of Medicine.
