

# “Slaying the Dragon” with the Fairy Tale Model

A phase model for trauma informed treatment

CARE CORNER  
TRAINING ASSOCIATION

## Understand the impact of trauma and guide our interventions

### COURSE OBJECTIVE

The brain and the body's response to traumatic experience are now understood to be a factor in the emotional problems of nearly all our clients. This one-day workshop will help anyone working in the field of emotional health with any population to understand the impact of trauma and how to use this understanding to guide our interventions using Dr. Ricky Greenwald's Fairy Tale Model.

### COURSE OUTLINE

- How to understand trauma's contribution to reactivity and symptoms
- How to explain to clients how past trauma or loss can lead to ongoing behavior problems or symptoms
- How to develop a systematic and comprehensive trauma-informed treatment plan
- How to build motivation for your treatment plan to succeed with this population.
- How to enhance the client's sense of safety through grounding techniques
- Understand the mechanisms of trauma resolution, including an introduction to Progressive Counting (PC)
- Model for case consultation and supervision of challenging cases

### Workshop Details

Date : June 02, 2015  
Time : 9.30am to 5.30pm  
Venue : To be confirmed  
Course Fee : \$500  
Closing date: April 20, 2015

### TRAINER

**Annie Monaco** is a Licensed Clinical Social Worker and a faculty member of the Child Trauma Institute and The Trauma Institute. She has been serving children and families in Western New York since 1992. She has a private practice assisting children and teens with a multitude of behaviours and issues. Her specialties include foster care children, juvenile offenders, family therapy, and complex trauma. She provides trauma-informed trainings and consultations of EMDR and Progressive Counting to therapists in Singapore, Israel and throughout the United States.

**Ann Beckley-Forest** is a Licensed Clinical Social Worker in private practice. She has worked with children and families since 1996. She is a registered play therapist and play therapy supervisor, and her specialties include intervention with young children and problems of attachment and child and adolescent trauma, although she also works with families and adults. She is certified in EMDR with a special focus on EMDR with children. She has offered play therapy trainings in the US, China and Singapore, and has trained in Western New York, Washington, DC and in Singapore for the Child Trauma Institute.
